

sub c1
A1

1. (Once amended) A process comprising [the step of] introducing into a cosmetic, hygiene or pharmaceutical composition [an] at least one [effective amount of an] α,ω -substituted oxyalkylenated silicone in an amount effective for [the purpose of] reducing or eliminating the transfer or migration of said composition when put to use.

2. (Once amended) A process comprising [the step of] introducing into a cosmetic, hygiene or pharmaceutical composition [an] at least one [effective amount of an] α,ω -substituted oxyalkylenated silicone in an amount effective for [the purpose of] improving the staying power of said composition when put to use.

A2

12. (Once amended) A water-in-oil emulsion comprising an aqueous phase and a fatty phase comprising at least one silicone oil, said emulsion further comprising at least one dyestuff and at least one α,ω -substituted oxyalkylenated silicone of the following formula:

in which:

- m = 100,

A2
Cont

- R = (CH₂)₃-O-(C₂H₄O)_x-(C₃H₆O)_y-CH₃, where x ranges from 3 to 100 and y ranges from 1 to 50, the weight ratio of the number of C₂H₄O units to the number of C₃H₆O units being about 42/58, the average molecular weight of R ranging from 800 to 1000,

and further wherein said emulsion has a dynamic viscosity ranging from 100 mPa.s to 20 Pa.s, this viscosity being measured on a Rheomat 180 from Mettler using a Spindle No. 2 at 25°C, at a shear rate of 200s⁻¹, and at time t=10 minutes.

A3

18. (Once amended) The emulsion according to claim 16, wherein said at least one pigment is present in the emulsion in a proportion ranging from greater than 0 to 20%, by weight relative to the total weight of the emulsion.

A4
Sub 31

21. (Once amended) The emulsion according to claim 20, wherein said at least one dye is present in the emulsions in a proportion ranging from greater than 0 to 15%, by weight relative to the total weight of the emulsion.

A5

24. (Once amended) The emulsion according to claim 23, wherein said [polydiorganodiloxanes] linear polydiorganosiloxanes correspond to the following formula:

in which:

- X is -CH₃ or OH, and
- n is an integer ranging from 0 to 2000.

25. (Once amended) The emulsion according to claim 23, wherein said cyclic [polydiorganodiloxanes] polydiorganosiloxanes are selected from cyclomethicones and mixtures of cyclomethicones corresponding to the following formula:

in which:

- n is an integer from 3 to 8.

Q6

27. (Once amended) The emulsion according to claim 23, wherein said at least one silicone oil is is [selected] chosen from cyclic polydiorganosiloxanes.

Q7

30. (Once amended) The emulsion according to claim 12, wherein said emulsion further comprises at least one additional silicone [compounds] compound chosen from poly(C₁-C₂₀)alkylsiloxanes, [phenylsilicone oils,] silicone gums, and silicone waxes.

Q8

32. (Once amended) The emulsion according to claim 30, wherein said [silicones] silicone gums are present in an amount up to 5% by weight of active material in the final emulsion.

Q9

36. (Once amended) The emulsion according to claim 30, wherein said silicone waxes are present in a proportion ranging from greater than 0 to 15% by weight of the final emulsion.

Q10

43. (Once amended) The emulsion according to claim 12, wherein said aqueous phase comprises from greater than 0 to 14% by weight, relative to the total weight of the aqueous phase, of a lower C₂-C₆ monoalcohol or a polyol.

Sub
32

50. (Once amended) The emulsion according to claim 49, wherein said at least one filler is chosen from talc, mica, silica, kaolin, [Teflon] tetrafluoroethylene fluorocarbon polymers, fluorinated ethylene-propylene resins, starch, natural mother-of-pearl, boron nitride, microspheres, microsponges, polyethylene powders, Nylon powders, microbeads of silicone resin and silica microspheres.

Q11

51. (Once amended) The emulsion according to claim [50] 49, wherein said at least one filler is present in an amount ranging from greater than 0 to 20% by weight relative to the total weight of the emulsion.

52. (Once amended) The emulsion according to claim 51, wherein said at least one filler is present in an amount ranging from greater than 0 to 10%.

Q12

56. (Once amended) The emulsion according to claim 49, wherein n_i represents the average refractive index of the totality of said at least one [fillers] filler
